Location: Amazon HQ2, Arlington Virginia

Conference Purpose:

The EBT Innovation Summit is a premier gathering designed to equip government leaders, program staff, and industry partners with the insights, strategies, and partnerships needed to strengthen the nation's food benefit delivery systems. As EBT continues to play a vital role in serving our most vulnerable populations, this summit offers a unique opportunity to learn from industry innovators, explore emerging technologies, and collaborate with government and private-sector partners. Attendees will gain practical knowledge they can bring back to their organizations—supporting modernization efforts, improving program integrity, and advancing service delivery for the communities they serve.
